Finding 49

Page 12, edit Finding 49 as follows:

49. The treatment and control measures described in Finding ~~48~~ **47** represent a higher level of water quality protection measures than those employed by other raisin processors in the Central Valley, and are consistent with the recommendations of the California League of Food Processors. In combination with the requirements of this Order, they represent BPTC.

Finding 50:

Page 12, edit Finding 50 as follows:

50. Economic prosperity of valley communities and associated industry is of maximum benefit to the people of the State. As described in Finding ~~47~~ **46**, Caruthers Raisin aids in the economic prosperity of the region by direct employment, supports the local economy, and provides a needed service for local raisin growers. In addition, the use of process wastewater for irrigation in place of higher quality groundwater is of further benefit to people of the State.
